#18/07/14/1201 – ROAR Conference Calabogie									

Subject:

Review of Council mileage expense claim policy and direction on specific case.

RECOMMENDATION:

That Council review and formalize the rules for compensation for mileage.

WHEREAS funding exists in Recreation and audited Surplus for 2013 which have not been allocated to specific purposes;

AND WHEREAS participation and education in conferences focused to specific needs along with networking with others in similar positions is an effective method of learning about new initiatives, programs and funding for programs in our municipality;

AND WHEREAS this new conference has been created in Eastern Ontario for Eastern Ontario small rural municipalities focusing on recreation;

THEREFORE BE IT RESOLVED THAT the Council of the United Townships of Head, Clara & Maria does hereby authorize two representatives of Head, Clara & Maria to attend the Rural Ontario-east Active Recreation (ROAR) Conference in Calabogie from September 22 – 25 covering all costs of registration, accommodation and mileage as per municipal policy.

BACKGROUND/EXECUTIVE SUMMARY:

Conference schedule is attached.

Costs for registration are low for this type of event at \$225 per person.
 Mileage per day if traveling daily is approximately \$180.
 Accommodation is \$99 per night single.

Depending on who attends, if they drive back and forth or stay over, total costs are approximately \$1,000 for two people.

The benefits to attendance at this conference include networking with similar positioned Council, staff and/or volunteers from similar sized and located municipalities. The opportunity for meeting someone to share funding opportunities, ideas, resources, programing and/or equipment with is increased due to location and target market.

With a newly formed Social Programming Committee, Council dedicated funding towards social programming and new volunteers coming on board, it is an excellent time to attend this type of conference.

It would be recommended that staff participate but existing responsibilities prevent taking on much more. Perhaps one member of Council and one member of the Social Programming could attend? Someone who has shown their support and involvement in community gathering and an interest in recreation and social programming for our municipality.

It would be incumbent on the people attending to report back to the social programming committee, staff and Council upon course completion and work with staff to implement any recommendations.

Financial Considerations/Budget Impact:

It is staff recommendation that the \$1,000 to sponsor two people from the municipality to attend would be well returned through contacts, information and networking.

Policy Impact:

As per policy, request permission from Council for funding something not previously budgeted for.

Others Consulted:

Approved and Recommended by the Clerk	
Melinda Reith, Municipal Clerk	<i>M Reith</i>
