REPORT TITLE									
Clerk's Report - For Information Only 04/05/12/801									

1. We have received a ratepayer complaint about recycling and the need to keep paper and cardboard dry to recycle. The question was why did Council not provide bags if they wanted ratepayers to use them? Other municipalities provide boxes.
2. The MTO contracts for road work have been awarded and I have contacted the successful firms for contact information for employment opportunities. I have heard back from one already. Info will be advertised next week in the newsletter.
3. Terry has reported that he and Paul are getting a good amount of work completed. They will install the "goose deterrent" ropes next week.
4. Municipal Hazardous Waste Day has been arranged for Saturday, June 2, 2012 from 10:00 – 1:00 at the Kenny Road site. Notices have been created and will be posted. Additional information will be included in the newsletter.
5. Bag tags have been ordered and will be ready for pick up Monday or Tuesday of next week. They will be in the mail asap. We are working on mailing 52 tags for permanent residences and fewer for seasonal – the number will depend on the person. We will provide 20 or so and then if they require more, we will arrange for that. We will keep track so that next year, the appropriate number will be sent out.
6. A regular exercise class has started in the hall again meeting Tuesday and Thursday mornings at 9:00. Everyone is welcome. At this time, they are using a dvd but this will evolve with time and interest.
7. Summer meeting schedule. It is recommended that we begin a once a month meeting in June due to staff holidays and attendance at the AMCTO annual conference. A resolution is included with suggested dates of June 15th, July 20th and August 17th.
8. For 2012 we budgeted \$1,500 for a screen for use in the office and Township hall. We have found that a decent sized and quality screen can be purchased for around \$200. We are requesting Council's permission to use the remaining funds budgeted for this equipment to purchase a new projector and speakers as well. A good quality multi-purpose projector can be purchased for around \$1,000. Speakers for around \$100.
