### Notes to Council Meeting

Deputation – Mr. Jim Gibson - Perceived problem to basic democracy. Procedural By-law. Item 11.2 – duty of clerk to ensure minutes and all meetings held ...are made available to each member not more than 48 hours prior to meeting.

Notice of special meetings – on-line posting of meeting. Agenda details – when some people get to see contents of package.

Time constraints, constituent's ability to address items in the package. Provide notice to Clerk 5 business days prior to meeting of council.

Issue is that resident doesn't find out about the matter on the agenda until it's too late to submit a request for a deputation. No procedural method for them to do so. Leaves limited option – email council and/or staff or call them. Doesn't ensure that constituents have an option to address council.

Suggest changes to procedures to allow constituents to address council.

Details changes....(included in report submitted to Council.)

Verbal or written notice prior to council.

### Questions & Answers

McKay – our procedures are in line with other municipalities. Most packages are out on Friday, not posted on line. They don't have a chance to see what's on the agenda. Common practise. Past council, even less lead time. Friday afternoon with Friday morning posting. Much shorter. I agree with reasoning for councillors to go through packages to see what people are calling us beforehand. It's been this way for years, why is this different now?

Gibson – appreciate research – issue is one of democracy. How can a ratepayer address anything in package when they only just heard about it? If a person wants to place an opinion on the table. They should do it as well.

McKay – system before – if you have a problem – call or email – make a deputation later. Why does that not work now?

Gibson – it's too late.

Mayor Reid – put on table for April meeting for Council debate and discussion.
