MAYOR

CLERK

Deputation to Council

- i. Mitchell Johnson and Erin Sinclair, Cogeco Connexion – Network Expansion in Head, Clara and Maria

Mitchell Johnson- Manager, Network Strategy

Role is to coordinate with government programs to get subsidy for broad band expansion for rural communities.

Erin Sinclair- Manager, Marketing

Role is to work on deploying network, marketing and sales strategies.

In 2019, Cogeco invested one billion dollars to improve services across Ontario and Quebec; largest initiative in Cogeco history. Cogeco currently has approximately 50 projects ongoing in network upgrades and expansions across Ontario. About 40,000 premises will be added or see upgraded services, delivering download speeds of up to 1 Gbps.

Cogeco does not have an established network in Head, Clara and Maria with services currently ending in Deep River. Current services in Deep River are a one way system which includes only TV service; no internet or home phone. Deep River will be upgraded with fibre, which will then be brought into Head, Clara and Maria, up to Deux Rivieres.

Head, Clara and Maria will be able to receive similar internet services to that of larger cities. Cogeco expects to expand services to 200 premises in Head, Clara and Maria.

Cogeco was a successful proponent for one of the Renfrew lots in the AHSIP reverse auction from Infrastructure Ontario. The AHSIP program has an overall target completion date of December 31, 2025, which is the end date to have everyone online and serviceable.

Services will include internet, TV cable service and home phone services.

Cogeco's preferred method of building fibre networks is by plowing which includes plowing of a one meter deep trench along the road way, with cable is deployed right behind it. Reburying the conduit is completed immediately after it is installed. It is the most successful in rural areas where premises are widespread and is the fastest and most economical deployment method. When burying cable, Cogeco wishes to be allowed to build as close to road shoulder as possible to reduce difficulties working along ditches.

Plowing is not always viable due to rock density and greater density of homes. In that case, Cogeco intends to use existing aerial infrastructure as much as possible to reduce the requirement of directional drilling. Aerial construction is cost-effective in areas where pole conditions are suitable for additional infrastructure.

If poles are not suitable to support additional infrastructure and plowing is not a suitable method, Cogeco can do directional drilling/ boring. It is the least cost effective and slowest deployment method.

Cogeco signed AHSIP agreement November of 2022; still very new. They will issue statement of work to contractors in coming months. Once design work is completed, they

will reach out to municipalities and contractors to begin permitting process; no later than spring of 2024.

Questions of Council-

Councillor Dowser – Cogeco would like to run fibre optic underground as much as possible, however there is a lot of stone and not a lot of residents along the highway. We have private roads, and those with only one house per kilometer. Will you run to each residence? If a residence falls within the green areas in the slideshow, the intention is that it will be serviced. Looking to connect communities through the CP Rail, and break out from the trail to service homes.

Councillor Richer – which of the three installation methods do they foresee happening in our area? In a similar project, 50% aerial (Nippissing). The more aerial installations they can do, the faster the deployment will be; particularly in rocky areas. When poles are not sufficient to support new infrastructure, Cogeco will go to boring.

Railway – would it be aerial or buried? Install would be underground as there is no continuous pole line. Even if the terrain is rocky there is still opportunity to go underground along the railway, as there is no worry about driveways etc.
The faster that Cogeco can deploy, the faster people will have access to service and the faster they can leave the trail.

Councillor Dowser - projection of user costs? Currently service is \$90 per month as a promotion; regular \$120 month which provides speeds of 1Gbps. Between now and 2025, it is anticipated that the cost will increase to approximately \$130; however there are less expensive packages that include slower internet speeds.

Councillor LeClerc – for railway installation, will it be on top, of or beside, the trail? Beside the trail; would not damage existing trail.

Councillor Kelly-Chamberlain – County of Renfrew owns the trail, will you be contacting them? Yes, Cogeco is conducting municipal meetings now, but will reach out to the County afterwards. They have had successful agreements previously.

Mayor Grills – This will be an interesting project with our geography.

Mitchell – With Bill 93, Cogeco is hoping to do as much aerial as possible in order to meet 2025 timeline; the government has been supportive in bridging the gap.

Motion Respecting Declarations of Emergency for Homelessness, Mental Health and
Opioid Addiction

COM-C 14-2023

Regional Council, at its meeting held on February 23, 2023, passed the following recommendation, as amended, of its Public Health and Social Services Committee:

Whereas Niagara Regional Council acknowledges that the challenges of homelessness, mental health and the opioid crisis are exceptionally complex issues that have a measurable and significantly detrimental impact on the residents of the Niagara region, including the loss of life;

Whereas addressing these issues places extreme stress on upper and lower-tier municipal programs and services, the Niagara Regional Police, Niagara Health, Emergency Medical Services and various non-profit service providers across the region;

Whereas the challenges of homelessness, mental health and opioids have seen a trend of becoming more prevalent in recent years and continue to have a significant impact on the Niagara community;

Whereas Niagara Region, through the staff in Community Services and Public Health, has taken many steps to address these issues with the development and provision of best-practice programming designed to mitigate their impact on the community;

Whereas Niagara Regional Council acknowledges that the challenges of homelessness, mental health and the opioid crisis are intrinsically diverse and should not be viewed as a single monolithic problem;

Whereas addressing these challenges will require strategies and tactics that are specifically designed for each of the unique issues;

Whereas Niagara Region accepts that the responsibility to address these challenges rests with multiple stakeholders, including the provincial government and its agencies;

Whereas 26 Niagara agencies within the Region, including Public Health and Emergency Medical Services, have collaboratively developed a Substance Use Prevention Strategy known as the Opioid Prevention and Education Network of Niagara, and are actively implementing it;

Whereas Niagara Region is a "Built for Zero" community that has accurate and timely data regarding its homeless population and delivers programs and services targeted for strategically helping those individuals experiencing homelessness;

Whereas the challenges of homelessness, mental health and opioid addiction are found throughout the entire province of Ontario and are not unique to Niagara;

Whereas Niagara Regional Council recognizes that municipal emergencies in Ontario are declared by the head of council as per the process detailed in the Emergency Management and Civil Protections Act; and

Whereas Niagara Regional Council acknowledges that the declaration of an emergency does not immediately result in a municipality receiving any additional funds or resources from senior levels of government.

NOW THEREFORE BE IT RESOLVED:

1. That the Regional Chair **BE DIRECTED** to formally issue three separate declarations of emergency, in the areas of homelessness, mental health and opioid addiction, as per the procedure outlined in the Emergency Management and Civil Protection Act;
2. That the Regional Chair **BE DIRECTED** to send correspondence to the Provincial Government requesting that action be taken on the eight measures proposed by the Association of Local Public Health Agencies (as previously endorsed by Regional Council on June 23, 2022), including:
 - a. Creation of a multi-sectoral task force to guide the development of a robust provincial opioid response plan that will ensure necessary resourcing, policy change, and health and social system coordination;
 - b. Expanding access to evidence informed harm reduction programs and practices including lifting the provincial cap of 21 Consumption and Treatment Service (CTS) Sites, funding Urgent Public Health Needs Sites (UPHNS) and scaling up safer supply options;
 - c. Revision of the current CTS model to address the growing trends of opioid poisoning amongst those who are using inhalation methods;
 - d. Expanding access to opioid agonist therapy for opioid use disorder through a range of settings (e.g. mobile outreach, primary care, emergency departments, Rapid Access to Addiction Medicine Clinics), and a variety of medication options;

- e. Providing a long-term financial commitment to create more affordable and supportive housing for people in need, including people with substance use disorders;
 - f. Addressing the structural stigma and harms that discriminate against people who use drugs, through provincial support and advocacy to the Federal government to decriminalize personal use and possession of substances and ensure increased investments in health and social services at all levels;
 - g. Increasing investments in evidence-informed substance use prevention and mental health promotion initiatives that provide foundational support for the health, safety and well-being of individuals, families, and neighbourhoods, beginning from early childhood; and
 - h. Funding additional and dedicated positions for public health to support the critical coordination and leadership of local opioid and substance abuse strategies;
- 3. That the Regional Chair **BE DIRECTED** to send correspondence to the Minister of Municipal Affairs and Housing requesting action be taken to correct the funding allocation model for homelessness based on the results of Auditor General's 2021 report which found that provincial funding in this area is incorrect;
 - 4. That the Regional Chair **BE DIRECTED** to send correspondence to the Ministry of Health and the CEO of Ontario Health requesting that the province immediately commit to fully funding gaps in mental health service as have been identified in the Needs Based Planning project by Niagara Ontario Health Team's Mental Health and Addictions Working Group, as well as funding ongoing annual increases as required by inflation and population need;
 - 5. That the Regional Chair **BE DIRECTED** to send correspondence to Federal Minister of Justice and Attorney General, David Lametti, and Federal Minister of Health, Jean-Yves Duclos, reaffirming Regional Council's October 22, 2020 motion urging the Federal government convene a task force to explore the legal regulation and decriminalization of all drugs in Canada;
 - 6. That the Regional Chair **BE DIRECTED** to send correspondence to the Association of Municipalities of Ontario (AMO) requesting that targeted advocacy be conducted in these areas, including the development of a singular motion that can be ratified by municipal councils across Ontario calling on the province to take immediate action;
 - 7. That Niagara Region, through its Public Health and Social Services Committee, **URGE** the federal government to declare homelessness as a humanitarian crisis; and

8. That this motion **BE CIRCULATED** to the local area municipalities, all municipalities in Ontario, the Federation of Canadian Municipalities (FCM), and local MPs and MPPs.

Yours truly,

Ann-Marie Norio
Regional Clerk

PROPOSED BY: Jessica Gibson Demers

WHEREAS an announcement in the media was made that the English Public School Boards Association, the largest school association in the province, is asking for the end of the moratorium on most pupil accommodation reviews;

AND WHEREAS this announcement potentially threatens the future closure of schools in many single school municipalities;

AND WHEREAS access to education and the presence of a school in a community is an essential service and has a direct link to the quality of life in a community;

AND WHEREAS schools play a key role in improving services and quality of life in a community and are viewed as activity centres where children have access to education, health services, recreation and culture;

AND WHEREAS schools are an important factor in the retention and attraction of residents in a community and is essential in order to resolve labour shortages and allow economic development and growth in small rural municipalities;

AND WHEREAS demographics in many areas are currently shifting and changing quickly as we work on meeting needs of many Ontario residents during a housing crisis;

NOW THEREFORE BE IT RESOLVED that Council is requesting provincial government through the Minister of Education to extend the moratorium on most pupil accommodation reviews in order to allow municipalities, townships, neighborhoods or subdivisions the opportunity to prosper, develop and grow without being hindered by school closure because of current low enrollments that could quickly change.

FURTHER BE IT RESOLVED that this resolution be forwarded to Premier Doug Ford, MPP Guy Bourguoin and all Ontario municipalities.

RE: Changes to the Municipal Heritage Register

Please be advised that the Council of the Corporation of the Town of Grimsby at its meeting held on February 6, 2023 passed the following resolution:

WHEREAS the Municipal Heritage Register is an important tool for the preservation and protection of cultural heritage properties within the Town of Grimsby and throughout the province of Ontario;

WHEREAS cultural heritage properties are those which have potential cultural heritage value or interest but have yet to been formally evaluated as per the process prescribed in the Ontario Heritage Act;

WHEREAS listed properties are labelled as such as they are 'listed' in the Town of Grimsby's Municipal Heritage Register, which identifies all municipally-recognized cultural heritage resources;

WHEREAS the Municipal Heritage Register allows municipalities to regulate demolition on properties protected under section 27 of the Ontario Heritage Act, ensuring that their cultural heritage value is preserved for future generations;

WHEREAS "listing" a property on the municipal heritage register recognizes a property's cultural heritage value, and is generally less complex, time-consuming, and

economically burdensome to local municipalities than pursuing the designation of a property as outlined within the existing process, which requires extensive research and documentation;

WHEREAS the "listing" of properties on the Municipal Heritage Register provides a measure of protection, ensuring that these properties cannot be demolished without the approval of the municipality;

WHEREAS it is important to list properties of cultural heritage value or interest, including those that are not currently designated, in order to ensure their preservation for future generations;

WHEREAS the 60-day demolition provision in the Ontario Heritage Act provides a short time frame for the municipality to consider the heritage value of a property before it may be demolished;

WHEREAS the new requirements of the Ontario Heritage Act mandate the assessment of an unreasonable amount of resources for a local municipality within a 2-year timeline;

WHEREAS the new requirement of removal after the 2-year anniversary leaves resources exposed, and unprotected for up to 5 years;

WHEREAS the new requirements do not allow the municipality to further assess our nationally significant resources, more specifically resources connected to the War of 1812, our indigenous communities and culture, people of colour, LGBTQ+, and impacts our community's commitment to ensure preservation of our inclusive history.

THEREFORE, BE IT RESOLVED that the Council of the Town of Grimsby addresses this resolution to the government of the Province of Ontario, affirming the importance of the Municipal Heritage Register and its role in preserving the cultural heritage of municipalities throughout the province;

Re: Call to Action: Review of the Cannabis Act

Moved by: Councillor G. Finch and Seconded by: Councillor M. Anderson

THAT:

The Council of the County of Huron approve the report by CAO Meighan Wark dated February 1, 2023 titled Report to Council: Cannabis Act Information as presented;

AND FURTHER THAT:

The Council of the County of Huron advocate for improvements to the Cannabis Act and current legislative framework for cannabis in Canada by sending the report titled *Report for Council: Cannabis Act Information*, including the correspondence found in the appendices, to the Western Ontario Warden's Caucus (WOWC) for discussion and consideration;

AND FURTHER THAT:

The Council of the County of Huron approve forwarding Call to Action Letters to the following for support:

- Federation of Canadian Municipalities (FCM)
- All Municipalities in Ontario
- Ministry of Agriculture, Food and Rural Affairs (OMAFRA)
- Premier of Ontario
- Provincial Minister of the Environment, Conservation and Parks
- Provincial Minister of Agriculture
- Provincial Minister of Municipal Affairs and Housing
- Member of Parliament
- Federal Minister of Agriculture and Agri-Food
- Federal Minister of Health

CARRIED

The County of Huron calls for a review and amendments to the Cannabis Act and the current legislative framework for cannabis in Canada.

To be clear, the County of Huron is not against or opposed to cannabis and we appreciate the role that both the federal and provincial governments provide in assisting municipalities. However, when new legislation is implemented, it is often at the municipal level that the impacts of change can be observed, and notations can be made for areas of improvement. It is vital that municipal governments pay attention and provide information and recommendations to higher levels of government so that continual improvements can be made over time.

It is in this spirit that we provide the following recommendation:

As a municipal government for one of Canada's most agriculturally productive regions and a popular tourism destination, we have been in the position to observe the last several years of legal cannabis production under the Cannabis Act as managed by Health Canada.

Under the current legislative and regulatory framework, we have observed, and continue to observe, serious odour impacts on local communities and residents from cannabis production facilities; including concerns from local medical practitioners about these impacts. Most often, these odour impacts arise from properties used for 'The Production of Cannabis for Own Medical Purposes by a Designated Person'.

In our local municipal experience, these facilities are often established without complying with local municipal zoning and nuisance by-laws, often contain hundreds of cannabis plants for each of the four assigned individuals, and usually do not include adequate odour controls to manage impacts on surrounding homes, public facilities, and the community at large.

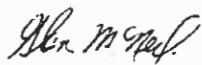

To help manage public impacts of cannabis production facilities, we request that all production facilities, including facilities used by a designated person to produce cannabis for an individual's medical purposes, to require confirmation from the local municipality that the facility/site selected complies with all local municipal by-laws and regulations prior to an application being approved by Health Canada. We also request that Health Canada implement a system of minimum setbacks between cannabis production facilities and sensitive odour receptors, including homes and public facilities.

As an agricultural community, we have had extensive experience with the Ontario Ministry of Agriculture, Food and Rural Affairs' Minimum Distance Separation (MDS) Formula, an approach which has been used to successfully manage land use conflicts resulting from odour between livestock facilities and sensitive receptors for almost 50 years. We believe a system based on MDS would be appropriate to manage the

impacts of Health Canada's approved cannabis facilities, including both licensed commercial producers and designated growers for individuals.

In conclusion, we strongly recommend further notice and enhanced consultation with municipal governments when drafting and implementing legislation and regulations related to cannabis production, as there is a direct impact on local municipal operations, local residents, and in some cases, serious issues of non-compliance with local municipal by-laws.

Sincerely,

RE: School Bus Stop Arm Cameras

Pleased be advised that the Council of the Municipality of North Perth passed the following resolution at their regular meeting held March 6, 2023:

Moved by Councillor Rothwell Seconded by Councillor Blazek

WHEREAS almost 824,000 students travel in about 16,000 school vehicles every school day in Ontario and according to the Ministry of Transportation's statistics the rate of vehicles blowing by stopped school buses is over 30,000 times every day;

AND WHEREAS the Province of Ontario passed the Safer School Zones Act in 2017 which authorized the use of Automated School Bus Stop Arm Camera Systems to detect incidents where vehicles failed to stop when the school bus was stopped and the stop-arm extended (O. Reg. 424/20);

RE: MTO Project Notification - Hwy 17 Harvey Creek Rd to Stonecliffe, GWP4111-17-00

Witjes, Ron (MTO)

Thu 2023-03-09 3:07 PM

To: HCM Clerk-Treasurer <crystal@headclaramaria.ca>

Cc: Waters, Darren (MTO)

Hi Crystal

The Ministry of Transportation (MTO) has reviewed both requests by United Townships of Head, Clara and Maria (Municipality) and offer the following responses to each:

Surplus RAP

MTO is interested in pursuing the option of providing the Municipality with the RAP generated from the pavement milling operation on Hwy 17 from Harvey Creek Rd to Stonecliffe. Further discussion will be required to determine suitability in relation to: quantity of RAP, location of stockpile site, responsibilities, timing, and Tender contract language. Please provide a Municipal contact available over the next several months, for further discussion on this matter.

Hwy 17 EB Left Turn Lane (LTL) at Pine Valley Road

Current Traffic records associated with Pine Valley Road include: sideroad volumes of 53 total vehicles (average daily total, off-season); and collision history of 3 collisions since 2014 in vicinity of Pine Valley Rd reported by OPP. It should be noted none of the collisions (2 animal strikes and run off the road) would have been mitigated by a left turn lane at this location. In order to appropriately review the LTL warrants at this location, MTO will include a sideroad count and turning movement count at this intersection as part of the summer 2023 data collection program. The results of the warrant analysis will be communicated to the Municipality once completed.

Also, I would like to take this opportunity to update the Municipality on status of this Hwy 17 paving project since my letter in Oct 2022. The Hwy 17 resurfacing from Harvey Creek Rd to Stonecliffe, GWP4111-17-00 is currently listed on the Capital Construction Program for construction start in 2024. Final timing of this project is subject to completion of the project design, Environmental Assessment clearance, and provincial funding.

Thank you for your interest in this project.

Whereas most municipalities in Ontario have a native land acknowledgement in their opening ceremony; and

Whereas a clear reference to the rights of Indigenous people is the aim of advancing Truth and Reconciliation; and

Time for Trailer Parks and Campgrounds to pay their fair share

Last summer I identified that the 3 locally owned private trailer parks/resorts/campgrounds pay Municipal and County taxes at the residential rate (same as any residential property owner) on their MPAC assessed value. This means whether the campground is full or empty they pay the same taxes. The MPAC assessment is done on the value of the property and any buildings (cabins and permanent structures) on the property that have been assessed under the Assessment Act. Trailers unless permanently grounded are not assessed and no property tax is paid on them. Waterfront property raises the assessed value considerably (\$500 to \$1000 per foot of waterfront).

Between the 3 private campgrounds there are approximately 122 acres of property and thousands of feet of prime waterfront. Based on MPAC assessments for 2022 the total assessment for these campgrounds was approximately 2.2 Million dollars. By my calculations the property taxes paid on these properties totalled approximately \$20,000.

As a comparator there are a number of private residences on waterfront in HCM that are assessed at around \$500,000, again by my calculations they would pay approximately \$4,000 in property taxes. To be noted their waterfront is a few hundred feet.

The residents of these trailer parks/campgrounds/resorts pay a considerable amount (\$4,000 to \$6,000) for those who have seasonal sites, otherwise it is ~\$40 to ~\$150 a night for a site depending on whether you have your own trailer or rent one. It costs roughly \$45 to camp outside in a tent at these sites.

There are approximately 200 trailer sites, 21 cabins and 7 rental trailers between these 3 private campgrounds.

If there are 2 people per trailer site that means potentially 400 extra people (not including guests in the cabins and rental units) in HCM using our roads, municipal docks, garbage and recycling facilities, not to mention using the trails and rental recreational items from the municipality. The latest StatsCan census shows a population of 267 for HCM. We potentially have more seasonal trailer dwellers than residents.

These 400+ people **through no fault of their own** pay nothing to the municipality for these privileges. This means that we as taxpayers are subsidizing their stays and paying for their opportunities to play, relax and enjoy.

From the Municipal Act (2021):

Trailers

164 (1) Without limiting sections 9, 10 and 11, a local municipality may prohibit or licence trailers located in the municipality. 2006, c. 32, Sched. A, s. 82.

Restriction

(2) If a municipality licenses trailers in the municipality, no licence fee shall be charged in respect of a trailer assessed under the *Assessment Act*. 2006, c. 32, Sched. A, s. 82.

Restriction, trailer camps

(3) If a municipality licenses trailer camps under a business licensing by-law and imposes a licence fee for each lot in the trailer camp to be occupied by one trailer, no licence fee shall be charged in respect of

a lot that is to be made available only for a trailer that is assessed under the *Assessment Act*. 2006, c. 32, Sched. A, s. 82.

Definitions

(4) In this section,

“trailer” means any vehicle constructed to be attached and propelled by a motor vehicle and that is capable of being used by persons for living, sleeping or eating, even if the vehicle is jacked-up or its running gear is removed; (“roulotte”)

“trailer camp” means any land on which a trailer is kept. (“parc à roulottes”) 2006, c. 32, Sched. A, s. 82.

Section Amendments with date in force (d/m/y)

2006, c. 32, Sched. A, s. 82 - 01/01/2007

The ask:

1. I am suggesting that Council consider implementing a \$200.00 annual trailer licence fee for each of the ~200 sites on the 3 private campgrounds in time for the 2023 season. It is about time the Municipality collects a user fee from those who enjoy our Natural Playground.
2. I am suggesting that Council consider immediately doubling the \$1 per bag fee for garbage from the trailer sites and initiate a review of the cost of operating the Municipal Dumpsite and whether further increases for those who do not contribute to the Municipal Tax Base is warranted. The trailer parks in all likelihood dispose of more garbage on a seasonal basis than the total resident population and will shorten the lifespan of our Municipal Waste sites at twice the rate. Everyone knows how difficult it is to expand current sites or create new ones.

Dear Crystal Fischer,

Re: Proposed Wireless Communication Site: C8501 - Trans Canada Hwy. @ Bissett Creek Rd.

On behalf of Rogers Communication Inc. ("Rogers"), I would like to submit for your review and consideration a summary of the municipal and public consultation process for the purpose of issuing a statement of concurrence concerning a proposed wireless communication site to be located at **93 Bissett Creek Rd., Head, Clara & Maria.**

Project Description & Proposed Location

Rogers is constantly improving and expanding its infrastructure to meet the ever-growing demand for high-quality reliable wireless voice and data services. The proposed site is needed to improve our wireless voice and data services within the growing community.

The proposed wireless communication installation consists of a 91.5m guyed communication tower and (1) walk-in equipment cabinet located within an enclosed compound approximately 300m south of Highway 17.

Municipal & Public Consultation Process

Rogers is regulated and licensed by Innovation, Science and Economic Development Canada (ISED, formerly Industry Canada) to provide inter-provincial wireless voice and data services. As a federal undertaking, Rogers is required by ISED to consult with land-use authorities in siting tower locations. The consultation process established under ISED's authority is intended to allow the local land-use authorities the opportunity to address land-use concerns while respecting the federal government's exclusive jurisdiction in the siting and operation of wireless and data systems.

The provisions of the Ontario Planning Act and other municipal by-laws and regulations do not apply to federal undertakings. Rogers is, however, required to follow established and documented wireless protocols or processes set forth by land-use authorities.

Rogers submitted an Application for an Antenna System to the the United Townships of Head, Clara & Maria via email on February 2nd, 2023 for a wireless communications installation to be located at 93 Bissett Creek Road.

The United Townships of Head, Clara & Maria has not developed a protocol relevant for establishing telecommunication facilities in the Townships and as a result, Rogers is following Innovation, Science and Economic Development (ISED) Canada's CPC-2-0-03 Default Protocol as it pertains to the public notification and consultation required for communication towers.

Rogers provided the attached Public Notification Package to the two property owners within the required 344.5m radius of the proposed installation. The notice was issued by regular mail on February 3rd, 2023. The notice described the proposal and invited comments by mail, electronic mail, or phone before 5:00pm on March 10th, 2023.

A newspaper ad was also published in the February 8th, 2023 edition of the North Renfrew Times notifying the public of the proposal and inviting residents to provide comments within 30 days of the notice.

One member of the public communicated with Rogers and had two questions about the proposed cell tower. The first question pertained to the Impact Assessment Act (IAA) and sought confirmation by Rogers that the proposed radio antenna system does not qualify as a Designated Project. As the proposed tower is not incidental to a physical activity or project designated under the IAA and is not located on federal lands, the proposed cell tower is not a Designated Project under the IAA. The second question sought confirmation that Rogers or the chosen construction contractor would obtain a building permit from HCM prior to the start of construction. A building permit is not required as antenna systems are under Federal jurisdiction and subject to licensing by Innovation, Science and Economic Development Canada. The communication with the member of the public is attached.

The proposed tower location is in the Ministry of Transportation of Ontario's (MTO) permit control area and Rogers submitted a building and land use permit application on February 14th, 2023. As of submission of this consultation summary, Rogers has yet to receive communication from the MTO about this proposal. Rogers does not foresee any issues with the proposed location and expects to pay the MTO the required permit fee in due course.

Rogers has now fulfilled all circulation requirements under ISED's Default Protocol as they pertain to the proposed new communication site to be located at 93 Bissett Creek Road.

Rogers has followed all the necessary steps in accordance with the Default Protocol's guidelines by:

- consulting with the municipality;
- advising the public of our proposal;
- addressing all reasonable and relevant concerns pertaining to our proposal; and

CONTRACT ASSESSMENT REVIEW

Although a tender for a service is often awarded on the basis of price alone, this is dependent on all other issues being equal or consistent. When all other conditions are not equal, such as when a new bidder is being considered other issues may hold more weight namely:

- Obtaining maximum value for dollars spent;
 - Price per hour;
 - Cost of Salt/Sand per tonne;
- Minimizing employee time and effort expended;
 - Training, orientation;
- Ensuring improved service and support;
 - References – reliability – experience;
- Ensuring product delivery, quality, efficiency and effectiveness;
 - Availability of Salt/Sand – location, storage and loading on vehicles;
 - Proximity of vehicles/drivers to Municipality – guarantee of service delivery;

If you feel that you may score in a negative way for any of the reasons listed, please provide a breakdown of how you and your business will work to resolve issues or meet requirements. Example, have drivers and equipment within the community although your business is not in the area. The Municipality has legislated time lines to meet in responding to winter events and requires its Contractor to be in a position to respond to all events at all times meeting the minimum maintenance standards 100%.

Scoring:

1. A scoring system as detailed below will be used to assist in the selection process. All conditions of the Agreement and Tender documents must be met.
2. If the response meets the following requirements, an award of 15 points will be given; only partially meets requirements – 10 points; and does not meet requirements – 5 points; for each of the following considerations.
3. Considerations and examples:
 - Price; (e.g. Lowest price would receive 15, Highest – 5)
 - Stand by day rate;
 - References/experience; (e.g. evidence of similar positive work history – 15, No experience/new operator -5)
 - Condition/age of equipment; (e.g. Newer equipment – 15, Older – 5)
 - Availability/ Detail of Backup Plan/Equipment; (e.g. Contingencies

detailed for loss of equipment and/or operator – 15, no plan/equipment – 5)

- Availability of or access to sand/salt supply – (e.g. 15 for within the Municipality, 5 – for distance further from Municipality)
- Proximity of drivers/equipment to the Municipality for appropriate response times
- Other consideration which may be recommended by Council.

CONTRACT ASSESSMENT REVIEW

Although a tender for a service is often awarded on the basis of price alone, this is dependent on all other issues being equal or consistent. When all other conditions are not equal, such as when a new bidder is being considered other issues may hold more weight namely:

- Obtaining maximum value for dollars spent;
- Minimizing employee time and effort expended;
- Ensuring improved service and support;
- Ensuring product delivery, quality, efficiency and effectiveness;
- Protecting the financial best interests of the municipality.

Scoring:

1. A scoring system as detailed below will be used to assist in the selection process. All conditions of the Agreement and Tender documents need to be met.
2. If the response meets the following requirements, an award of 15 points will be given; only partially meets requirements – 10 points; and does not meet requirements – 5 points; for each of the following considerations.
3. Considerations and examples:
 - Price; (e.g. Lowest price would receive 15, Highest – 5)
 - References/experience; (e.g. evidence of similar positive work history – 15, No experience/new operator -5)
 - Condition/age of equipment; (e.g. Newer equipment – 15, Older – 5)
 - Availability/ Detail of Backup Plan/Equipment; (e.g. Contingencies detailed for loss of equipment and/or operator – 15, no plan/equipment – 5)

Report #23/03/23/1302- County of Renfrew Planning Services									

Subject: County of Renfrew Planning Services

Recommendation:

That Council approves the cost of mileage to have a County Planner attend the municipal office on a quarterly basis for a one year trial.

Resolution:

Resolution No.: 23/02/23/004

Moved by Councillor _____ and seconded by Councillor _____

WHEREAS Council received a request from a resident in consideration of offering Planning Services at the municipal office;

WHEREAS Council received Report #23/03/23/1302 regarding Planning Services offered through the County of Renfrew;

THEREFORE BE IT RESOLVED THAT that Council of the United Townships of Head, Clara and Maria does hereby direct staff to schedule a Planner from the County of Renfrew to attend the municipal office on a quarterly basis, to be reviewed in one year.

Background/Executive Summary:

A letter dated February 21, 2023 submitted by Mr. Doug Antler has been enclosed. Mr. Antler is requesting Council's consideration in providing space and accommodations to have a County of Renfrew Planner attend the municipal office on a regular basis in order to reduce the needs of residents having to travel to Pembroke to speak with County Planners.

I reached out to the County of Renfrew to gather further information in preparation of the meeting and was advised that a Planner could attend the municipal office. It was suggested that attendance be on a quarterly basis. The cost to have a Planner attend the office would consist of mileage only. The County does not charge by the hour or day because they do not guarantee that the entire day will be spent on Head, Clara and Maria matters, as the Planner may be working on a file for a different municipality (if there are no files to work on for Head, Clara and Maria). Residents would be encouraged to schedule a meeting beforehand; however drop-ins would also be welcome.

The Planners will be able to provide specific information on properties (only if the landowner provides authorization to do so; they cannot provide information on private property without landowner permission). If there is a specific matter that a resident wants to talk about, the County recommends that they fill out the general inquiry first before meeting so that the Planner can be prepared. Many times background research has to be completed to provide useful information prior to a meeting which County Planners like to have completed beforehand.

If Council wishes to proceed, the County will set up dates on an on-going basis.

Staff sees the value in having a County Planner attend the municipal office largely as a result of the increase in severance applications and planning matters within the municipality in recent years. It provides an opportunity for residents to access more services within the municipality without incurring

major costs. Staff recommends proceeding with having a Planner attend the municipal office on a quarterly basis for a one year term trial to be reviewed early 2024 to see if it is a well-used service.

In regards to Council's consideration of having members of Staff attend the meetings between County Planners and residents; the County provides the municipality with planning services, similar to many neighbouring municipalities, and regardless if staff attends meetings between residents and Planners, planning matters will still have to go through the Planning Department at the County level. Each planning inquiry is unique due to many factors including the size and location of the property, intended use, the potential presence of aggregates and farmland, proximity to water, number of completed severances from original holding etc. If Staff were to attend a meeting between County Planners and residents, it does not necessarily mean that they would be able to assist another resident who has a planning inquiry as the requirements for, and factors contributing to, the approval of an application will widely vary.

Financial Considerations/Budget Impact:

The cost to have a County Planner attend the municipal office on a quarterly basis will be approximately \$500.

For: Consideration at the next meeting of Council

Reference: Special Session of County Council, held in Pembroke, Wednesday December 21, 2012, Planning Division Report on Official Plan Amendment No. 35 and Bill 109, the More Homes for Everyone Act. 2022.

I attended this meeting. First, let me say that I was impressed with the County Council Chambers, the seating of all Mayors/Reeves, etc., the TVs and cameras for live streaming, the participation in the meeting for those representatives of County unable to attend in person, and the “peanut gallery” (my feeling) for the public to observe and attend meetings. I was once very comfortable in navigating the Renfrew County Building, as I visited there quite often. This time was a little different, so I just followed the crowd.

All four in-person public presentations were quite informative.

The first was Mr. Whitehead of JP2G consultants, I believe representing Mr. Joe Kowalski of White Water Region. Mr. Whitehead used all of his time allotted to present five variances in detail that should be addressed before implementing Official Plan Amendment No. 35. There was no response from the Planners, only notes taken, as was the case for the other presenters.

The second was The Ontario Landowners Association, Donna Burns, listing several concerns on behalf of landowners, but in particular pointing out that there is no mention in the document of who is responsible for refunding the monies when an application is held up past deadlines. Is it the Province, The County, The Municipality or the Taxpayers?

The third was a concerned taxpayer, saying she didn’t see in the document where it would help her situation of trying to sever a couple of properties to sell to allow her to move into a retirement home setting. After meeting the objectives of seventeen planning directives (all of which would require engineering and expert or consultant inputs), she wouldn’t have any money left after selling the property at market value. Would it be possible to have a short form list for simple severance that could be understood by the owner looking to sever for sale or gifting?

The fourth was a resident of Alice Township with several property holdings (Albert Kruschenski, I believe was his name). He presented a letter advising that from this day forth, all his properties be removed from the County of Renfrew Planning Act and that he would look after the well-being of those properties as per his right as the legal owner of those lands.

Several Clarifications were requested from the various mayors in attendance, these were either clarified or recorded for future clarification.

The other highlight of the meeting was that I actually got to personally meet and shake hands with Warden Peter Emon again.

As you may or may not know, I too am in the process of attempting to sever three waterfront properties for resale. I started this process over a year and a half ago; every time I made another turn in the trail of enquiry, it was pointed out that to expedite such severances, it was best advice to have a fully completed application by a qualified Land Survey Co.. I submitted this application to a firm in North Bay on March 23, 2022 and I am still waiting for the completed and verifiable application one year later.

Given the aforementioned concerns, I kindly request that the following questions be considered for discussion at the upcoming Council Meeting:

- Would it be possible to have someone from the County Planning Section come to the Township Office of Head, Clara & Maria once a month, every two months or whatever it would take to get a Planner here in Head, Clara & Maria in person?
- Would the Township Office have an open space for this one day, that would accommodate whatever equipment would be necessary to access data on individual properties?
- Could the visits by property owners be by appointment?
- Could a Staff Member sit in on the meetings to acquire first-hand knowledge of what is needed when responding to questions on severances and procedures? I believe this would be an invaluable experience for a Township member.

The Renfrew County Buildings are forbidding in nature now (my feeling), and it would better serve the residents and taxpayers of Head, Clara & Maria to drive or walk only as far as Stonecliffe to obtain questions and answers regarding planning and severances.

I believe this would be the single most important step that the County and Municipality could do to improve and expedite requests and applications for Private Properties within Head, Clara & Maria.

Thank you for your time and consideration. I look forward to your response.

Respectfully Yours,
Doug Antler

Report #23/03/23/1303- Provision of Recycling Bins at Local Businesses									

Subject: Review of Provision of Recycling Bins at Local Businesses

Recommendation:

That Council reviews the Memorandum of Agreement for the provision of recycling bins at local businesses and directs staff to enter into new agreements for 2023-2024.

Resolution:

Resolution No.: 23/02/23/010

Moved by Councillor

and seconded by Councillor

WHEREAS Council received Report #23/03/23/1303 regarding provision of recycling bins at local businesses and have had an opportunity to provide revisions to the Memorandum of Agreement;

THEREFORE BE IT RESOLVED THAT that Council of the United Townships of Head, Clara and Maria does hereby direct staff to continue to provide recycling bins to local businesses and enter into new Memorandum of Agreements for 2023 and 2024.

Background/Executive Summary:

In 2022, a request was made of local business owners to supply recycle bins at their businesses. Report 22/03/22/1302 was presented to Council on March 22, 2022 for Council's consideration of entering into a Memorandum of Agreement for the provision of recycling bins at local businesses, outlining the requirements that needed to be met to ensure continuity of efficient recycling operations. The recommendation included that the provision of bins be on a one year trial basis to be reviewed again in March 2023.

Members of staff believe that the provision of recycling bins to local businesses was a successful initiative. Staff did not receive any complaints or penalties from the recycling processing facility for contaminated material and both parties were able to work together to ensure that recycling bins were being picked up for processing at full capacity.

The program benefits business owners in not having to transport recycling to the landfill and it benefits the municipality in segregating the large volumes of recycling that is brought in from the businesses.

It is proposed that the Agreement be changed to a two year term at which time the municipality's blue box recycling program will be transitioning to the producer responsibility system. It is proposed that the length of the term may also be extended at the discretion of the Clerk and based on the availability of equipment as some business owners have requested bins to be delivered earlier than May 1st and some business owners have requested that the agreement extend past September 1st. This provides staff with flexibility and increased ease of operations without requiring further Council approval.

Financial Considerations/Budget Impact:

Providing recycling bins to local businesses does not result in any additional fees.

Report #23/03/23/1304- Inclusive Community Grants Program								

Subject: Inclusive Community Grants Program Funding Opportunity

Recommendation: That Council direct staff to submit an application for funding through the Inclusive Community Grants Program for the installation of accessible washrooms at municipal boat launches and LaCroix Park.

Resolution:

Resolution No.: 23/03/23/006

Moved by Councillor _____ and seconded by Councillor _____

WHEREAS the Inclusive Community Grants Program is accepting applications for funding for projects that will help older residents and people with disabilities participate in community life;

THEREFORE BE IT RESOLVED THAT Council of the United Townships of Head, Clara and Maria does hereby direct staff to submit an application for funding through the Inclusive Community Grants Program for the installation of accessible washrooms at municipal boat launches and LaCroix Park.

Background/Executive Summary:

Applications for the Inclusive Community Grants Program are being accepted until April 20, 2023 which provide municipalities, non-profit organizations, and Indigenous communities with up to \$60,000 for local projects that will help older residents and people with disabilities participate in community life. Projects focusing on improving opportunities for community engagement and those that support older adults to age and live at home with access to care are being prioritized.

Priorities of the program are as follow:

Priority 1: Increasing accessibility to outdoor spaces to improve older adults' and people with disabilities' community engagement.

Priority 2: Enhancing the supply of accessible and attainable housing to support older adults and people with disabilities to age in place, in support of the government's broader goal to increase the housing supply.

Priority 3: Increasing the number of inclusive communities by developing Age-Friendly Community (AFC) plans that support long-term community planning to address the needs of older adults and people with disabilities.

The link to the guidelines can be found here: <https://forms.mgcs.gov.on.ca/en/dataset/on00519>.

The Program will provide up to a maximum of \$60,000, that will support up to 100% of the total eligible project costs for projects that take place between August 2023 and March 31, 2024.

This grant program may be an opportunity to have new accessible washrooms installed at the municipal boat launches and LaCroix Park, similar to the concrete washroom that was installed at Old Mackey Park. If members of Council have other projects or ideas that would fall within the guidelines of this funding opportunity, they can be considered as well.

Options:

Direct Staff to submit an application for funding through the Inclusive Community Grants Program Funding Opportunity.

Do not pass Resolution No.: 23/03/23/006 directing Staff to submit an application for funding.

Financial Considerations/Budget Impact:

This grant will cover up to 100% of eligible expenses so there will be no direct financial impacts aside from in-kind contributions of Staff time in executing the grant requirements.
