17. QUESTIONS AND ANSWERS

Can businesses get recycling bins at their business?

Action: Councillor Allen will follow up with the Clerk.

Are businesses not receiving free bags anymore since elimination of bag tags? The Disposal Site Attendant has not been billing for the first 208 bags.

Can we reschedule March 15th meeting of Council? Council agreed to reschedule to March 22nd, 2022.

MLSC needs to move snowmobile trail as MTO will no longer allow crossings that are not at a 90-degree angle. Proposing to move it to Kenny Road.

Action: Requesting that the MLSC provide the Clerk with a letter to go to Council.

No Jake Break signs – residents have been requesting that they be installed. Aware that it cannot be enforced, however, signage may still help reduce the issue.

Action: Clerk to follow up with MTO.

Clean and Clear By-Law Survey - Clerk to bring information to the March meeting.

Hall Opening – we have had a request from a resident to book the municipal hall. There are too many variables at this time – renovations, library is currently set up in the hall, bar restocking.

MAYOR

CLERK

Deputations/ Presentation

Upper Ottawa Valley OPP Detachment Commander Stephan Neufeld

Thank you to staff, auxiliary, civilian, community partners.

Strategic Plan – our people, our work, our communities.

Healthy and resilient OPP –there has been a number of things put in place over last couple of years to support healthy workplace team.

Calls for service – property and violent crimes going down over five year period; seeing an exponential increase in opioid related and mental health calls (across Canada, not just Renfrew County).

Partnership with Renfrew County Mental Health. OPP and mental health nurse will go out to see people instead of having to go to hospital for better use of appropriate resources. January 2020 was official launch. Nurses are working in building alongside officers. This program has resulted in a drastic reduction in calls for service, particularly prolific callers. Have applied for another grant to hire another nurse.

Court hours saw a large percentage increase as courts started to open back up; were closed in 2020.

Traffic stops and patrol hours should be declining/increasing at an even rate; traffic will be at forefront in 2022.

Impaired charges are mainly alcohol related, not marijuana.

Plans for 2022:

Implementing Cam safe; a community safety project, community driven. Registry where community members can voluntarily provide contact information and location of personal security cameras. If OPP ever required footage from their personal camera, they could easily contact the individual. Brings awareness to where cameras are located in an area if investigative footage is required.

Project Lifesaver- grant has been written, not yet approved. For seniors, people with disabilities etc. who are prone to wandering. It is a safety program, participants register a watch containing a tracking device. Searches are time sensitive, every second counts; the faster you can locate someone the greater success.

Collision Reporting Centre – already up and running. Reporting service particularly for insurance purposes. Police do not necessarily have to attend site to provide report. 55 reports this year. The public have 48 hours to report to nearest reporting centre. Criteria has to be met. There are still instances where police would be required, however, there are many instances people can report to the centre instead of calling 911.

Community Safety and Well-Being Plan – Plan being drafted, should be rolled out this year.

Questions/Comments

Councillor Dowser - Accident investigator for the snowmobile club -cannot access occurrence numbers as he is not a party to the actions. Commander Neufeld can send that information if requested.

Councillor Allen - Doubling up partners – frustrated in not being able to get police assistance because officers are not able to attend area if working independently. OPP need to prioritize calls, unfortunately secondary calls will not be responded to immediately. It is a requirement of new recruits to have to attend all locations of the region and make community contacts.

Green Burial Ottawa Valley – Megan Spencer and Mary Nash

Our area would be suitable for a green burial site. Their organization is non-profit with 151 members throughout Ottawa valley including Ottawa. Memberships are \$20 for lifetime.

A green burial is an accessible choice in a park like setting and includes a natural burial in which an un-embalmed body is placed in a biodegradable casket or shroud and buried without a vault so decomposition can occur.

Picton and Coburg are closest green burials to our area.

There can be stand alone green burial sites, or an extension of conventional cemetery. There are 11 sites in Ontario now; all of which are extensions of existing cemeteries. There are no stand-alone sites at this time.

If Council was interested in developing a green burial site or re-opening a site in their care, another slideshow outlining those details is available.

Questions/ Comments

Councillor Dowser- what materials are green burial baskets made of? Pine box is most common, shrouds and woven caskets are other options.

What about cases of passing of unnatural causes -no embalming fluid, loses a lot of blood – how will the change of appearance impact an open casket? Still learning, may not be the best option in that instance. Green burial is reserved for closed casket or natural deaths.

There is a strong movement towards home funeral, more involvement from family members to have family members prepare the body.
