

INSPECTION

Inspection of Approved Aerial Herbicide Project Ottawa Valley Forest

The Ontario **Ministry of Northern Development, Mines, Natural Resources and Forestry (NDMNR)** invites you to inspect the ministry-approved aerial herbicide project. As part of our ongoing efforts to regenerate and protect Ontario's forests, selected stands on the **Ottawa Valley Forest** in Clara, Maria and Head Townships (see stars on map) will be sprayed with herbicide to control competing vegetation, starting in early **September 2021**.

The approved project description and project plan for the aerial herbicide project is available electronically for public inspection by contacting the **Ottawa Valley Forest Inc.** during normal business hours and on the Natural Resources Information Portal at <https://nrp.mnr.gov.on.ca/s/fmp-online> beginning **July 28, 2021 until March 31, 2022** when the Annual Work Schedule expires.

Interested and affected persons and organizations can arrange a remote meeting with Ottawa Valley Forest Inc. staff or NDMNR staff to discuss the aerial herbicide project. For more information, please contact:
